

# Tulip (Your Eyes)

## Ty Tabor

All my days, All my life  
i have questioned wrong and right  
Anything that i see makes me face reality  
And then there's you -  
A million miles come together in a smile  
Memories try to fade all the things that we've made  
And then my mind tells me to keep my heart in place

But your eyes make me weak, make me strong  
make me feel that i belong  
And your eyes make me laugh, make me cry  
Make me feel that i can fly

Steal away for a call  
Hear your voice but that is all  
i wish i could hold your hand  
See you through and understand  
Is it real? Is this love?  
Is it push or is it shove?  
Will we play in the aisle  
Or will it just last a while?

But still my mind tells me to keep my heart in place

But your eyes lift me up, bring me down  
Make me wish you were around  
And your eyes make me see, make me blind  
Make me miss you all the time  
And your eyes see through me, see my soul  
make me want to lose, want to lose control

Funny thing - only takes just a little while  
To make it feel like such a trial  
And funny thing, when we're together, it's okay  
And we know just how we feel  
And we don't have to wonder if it's real  
But still my mind tells me to keep my heart in place  
Your eyes â€¢ Your eyes â€¢ Your eyes â€¢

And your eyes hold the key to the door  
That I never saw before

And your eyes make me stand, make me fall  
Make me wonder at it all  
And your eyes make me wish, make me wait  
Make me hope that you can hold on â€¢
