

Jam Back At the House (Live Woodstock Version)

Jimi Hendrix

Jimi:

"yeah well a like I said before we only ran up a few numbers so let
Me try and do this one like we were just jammin' at the house we don't have
A name for yet it's just like an instrumental so we'll just go along with it.
It goes somthin' like this."No lyrics. it's an insturmental like jimi said, but a great instrumental.Jimi:
"before we go any further we'd like to say that you all really had a lot of pashents
Three days worth. you've prooved to the world what can happen with a little bit of
Love and sounds. oh, I left my girlfriend at home I'm sorry. I'd like to do a thing
That a new american anthem until we get another on together. this is called 'voodoo
Child (slight return)'."
