Masterpiece (Extended Version)

Gazebo

what a wonderful day
everything is ok
not a problem in mind
leaving worries behind
except for that little doubt you have
concerning your dress tonight
so you take a bottle of french wine
and then you say you don't live twice
you cast the diceChorus 1:
masterpiece you should have seen it
that rainbow in the moonglow
masterpiece you got to live it
that new dawn tomorrowwhat an elegant place
you walk with elephant grace
all Sunset Boulevard
has been waiting the star
they all gather to celebrate
happy birthday my honey dear
what a joy to see your old mates
in this Hollywood atmosphere
with us at lastChorus 1Chorus 2:
masterpiece you never act it
but life is a movie
masterpiece you got to try it
we show you'd be movingyou had the tango too much
you say you"l keep in touch
back home in your rolls royce
you smile and think of the boys
all of sudden your sight obscures
and your memories drift the air
and you finally feel secure
you're another star up there
a star up thereChorus 1
Chorus 2
