Back Into Action

Handsome Devil

Oh joy, lucky me I'm looking back at what I used to be
I'm looking back to see
See what I want to see, forget the darkest living part of me
The irony
Without a soul to stand by me, I'm waiting
For you to call me out suddenly
I'm back, back, back into action
Corner me and I'm back into action
Back, back, back into action
Corner me and I'm back into action
Tease me a little more, you made your play
And now you've got to go, you've gotta go
Don't wanna work it out, you'll never understand
What I'm about, you'll never know
Self-destruction all the way, I'm waiting

For you to call me out suddenly
I'm back, back, back into action
Corner me and I'm back into action
Back, back, back into action
Corner me and I'm back into action
I know you don't believe in me
Suddenly
I'm back, back, back into action
Corner me and I'm back into action
Back, back, back into action
Corner me and I'm back into action
I'm back
Back into action
