

If You Think About It Now

Circulatory System

If you think about it now
Won't you tell him?
Tell him 'bout the things that comin'
It's not just for the moment, no
All the rocks and stars and steps
Here we go now
If you think you found out how
Won't you tell him?
You tell him the things you found, now
He'll tell you the things they make up in their heads
Unreal
Tell them they are
(Tell them they are)
Got the words
You know the feelin', feelin'
Would you never tell him?
Did you never tell him?
