

# Cherry Tree

## The National

Take us down and all apart  
Cherry tree  
Lay us out on the table  
Your sharp alright  
But no one is asking so leave it alone  
Leave it alone, can we?  
No one is asking so leave it alone  
Leave it alone, can we?  
Loose lips sink ships  
Don't look at me. I'm only breathing  
Don't look at me, I'm indiscreet  
Don't look at me. I'm only breathing  
Don't look at me, I'm indiscreet  
Your sharp alright

But no one is asking so leave it alone  
Leave it alone, can we?  
No one is asking so leave it alone  
Leave it alone, can we?  
Loose lips sink ships  
Can we show a little discipline?  
Can we show a little discipline?  
Can we, can we?  
Loose lips sink ships  
Can we show a little discipline?  
Can we show a little discipline?  
Can we, can we?  
Loose lips sink ships
