Why?

City High

City High, Booga Bassment
Here come another one, uhI know things ain't work out for you and me, lady
But don't worry 'bout my child
'Cause I'm gonna take care of him baby
But I can't keep coming around breaking you off
'Cause it breaks my heart when we make love
And ain't no love involvedTell me why should we screw if we can't get along?
What's the point in gettin' it on
Girl you know that it's wrong when all we do
Is sweep it under the rug
What's the point when we touch if we're no longer in loveThis makes no sense to do what we do
'Cause baby I've been moved on
And I know you got someone knew
Said we promised each other we wouldn't make this a sexual thing
'Cause it feels good, while we bang
But when it's all over you know we be fighting againWhy should we screw if we can't get along?
What's the point in gettin' it on
You know that it's wrong when all we do
Is sweep it under the rug
What's the point when we touch if we're no longer in loveWhy tell me why it seems to be
The only time you work with me
Is when we're in between the sheets
When I'm working your body
That's when we get along
But when you put your clothes back on
We're right back to the same old song
We got it all wrongWhy should we screw if we can't get along?
What's the point in gettin' it on
You know that it's wrong when all we do
Is sweep it under the rug
What's the point when we touch if we're no longer in loveWhy should we screw if we can't get along?
What's the point in gettin' it on
You know that it's wrong when all we do
Is sweep it under the rug
What's the point when we touch if we're no longer in love
