

You Wrote The Book On Love

Backstreet Boys

When I first met you, my life turned a page
Chapter one was, 'How true love was made'

You taught me with your kiss

Things about romance I miss

You knew everything from A to Z

What pleases you and what pleases me

Girl, when you touch me

I began to understand

Oh you

You wrote the book on love

(You wrote the book on love)

And I wanna read every word

So I know everything about you

Oh you

You wrote the book on love

(You wrote the book on love)

Girl, I just can't get enough

Of your love

I know, you wrote the book on love

Oh Brian, help me sing

Each time I hold you, I find something new

'Cause I know what I love about you, baby

Girl, I discovered

You bring out the lover in me, yeah, yeah

You're like a fire that burns in my soul

Like a volcano, I'm ready to blow

'Cause every time I look at you I feel

Love I can't explain

Oh you

You wrote the book on love

(You wrote the book on love)

And I wanna read every word

So I know everything about you

Oh you

You wrote the book on love

(You wrote the book on love)

Girl, I just can't get enough of you

Oh you wrote the book on love, on love

I hear what your heart is saying to me

(Saying to me)
I see the picture so clearly
I'm thirsty for the knowledge
True love brings
(Brings)
When you're near me, yeah
You wrote the book on love
(You wrote the book on love)
Girl, I just can't get enough of you
Oh you wrote the book
Oh you
You wrote the book on love
(You wrote the book on love)
And I wanna read every word
'Cause you baby
You wrote the book
Oh you
(You wrote the book on love
You wrote the book on love)
You wrote the book on love
(You wrote the book on love
You wrote the book on love)
And I wanna read every word
(You wrote the book on love
You wrote the book on love)
'Til I know everything about you
You wrote the book on love
