

Farting With a Walkman On

Bloodhound Gang

I know you're gonna play me when you get wind
I heard you're full of shit so I've been duped again
But if you cover your ass with the same old song
You might as well be farting, farting with a walkman on I know you're gonna play me when you get wind
I heard you're full of shit so I've been duped again
But if you cover your ass with the same old song
You might as well be farting, farting with a walkman on I know you're gonna play me when you get wind
I heard you're full of shit so I've been duped again
But if you cover your ass with the same old song
You might as well be farting, farting with a walkman on
Give me a fuckin' break Farting with a walkman on
Farting with a walkman on
Farting with a walkman on
Farting with a walkman on
