What Went Wrong

Alyssa Jacey

What went wrong?
Looking for a way to fill my day
I drink a little to dull the pain
But I feel the same
So I go to the kitchen for another round
Drink every drop hoping that I'll drown
And hoping I'll be found
[Chorus:]And here I am all alone
Even if I ran away from home
It won't change what went wrong
I stumble into bed and think about the past
I'm still wondering why it didn't last
Why I failed the test

I gave it all I had but it was not enough
It didn't make me strong it didn't make me tough
[Chorus:]And here I am all alone
Even if I ran away from home
It won't change what went wrong
It ended sad and it ended cold
Couldn't win still I didn't fold
[Chorus:]And here I am all alone
Even if I ran away from home
It won't change what went wrong
What went wrong . . .
What went wrong . . .
