Crave

The Butterfly Effect

When you crave
Hurts like slave
More the pain
Hold on when it feels like I only want you
And I'll bleed
Only for you
When you lie
Damaged
I crawl like flies
Hold on, when it feels like flies, oh, crawling their way through me cause I'm empty, I'm empty like you made me

When it burns like lies and all I want is you won't I but it hates me, it hates me like you hate me
yeah you do, crave
You
Me
Always and forever yeah
It's hard to be strong when I crave you like I do
Hold on,when it feels like flies I'm only waiting you want me down but I'm empty, I'm empty like you made me
When it burns like lies and all I want is you won't I but it hates me, it hates me like you HATE ME
