Sitting On Fire

Spiritualized

Baby I'm sitting on fire
There's an old flame still burns in my heart
When we're together a fire burns bright
But the old flame ignites when we part

Baby you know that I love you
But the memory still haunts at my door
When we're together we stand so tall
But the part of me still falls to the floor

Set me free and I do believe

Baby I'm sitting on fire
But the flames put a hole in my heart
When we're together a fire burns bright
But the old flame ignites when we part

It's so hard to fight when you're losing
I got a little tear in my soul
In my own time I've been losing fast
And I can't even hold what I own

Set me free and I do believe
