

Kids From Kibble And The Fist Of Light

Biffy Clyro

Say nothing's better
(You say nothing better)
Say nothings better than the rest
Say hope you're better than the rest
'Cause you talk a good game
Your sensations are suffering
I'll make your sensations suffer
Through these long sadistic eyes
And you see the way I collide with you
I hope you see straight
Tonight I'm in a rage
Tonight I'm in a range
Say nothing's better than the rest
'Cause you talk a good game
My sensations are suffering
My sensations are suffering
Through these long sadistic nights

And you see the way I, collide with you
I hope you see straight
Tonight I'm in a rage
Tonight I'm in a range

Once again, you've missed the point
These strange explosions hit me, like a fist of light
These strange explosions hit me, like a fist of light
These strange explosions hit me, like a fist of light
These strange explosions hit me, like a fist of light
These strange explosions hit me, like a fist of light
(Do you believe that I can?)
These strange explosions hit me, like a fist of light
(Do you believe that I can?)
These strange explosions hit me, like a fist of light
(Do you believe that I can?)
These strange explosions hit me
