

# Kandi (Eat More Cake Remix)

## One Eskimo

You've been my queen for longer than you know  
My love for you has been  
Everything step I take  
Every day I live  
Everything I see And if I get things wrong  
Don't want you to think I'm running away  
But I heard from Jo about this guy And I want to know What did he say?  
He called me baby, baby all night long  
What did he do?  
He called me baby, baby all night long Why? Why? Why, did you need him?  
Where was I?  
Just how close to you is he?  
Every smile you gave  
Every touch you made  
Every word you said And it hurts beyond hurt  
It was a love that blinds  
And a love that stings  
When I heard from Jo about this guy  
And I want to know What did he say?  
He called me baby, baby all night long  
What did he do?  
He called me baby, baby all night long  
What did he do? He called you baby, baby all night long  
What did he do?  
He called me baby, baby all night long  
What did he say?  
He called me baby, baby, all night long  
What did he do?  
He called you baby, baby, all night long I know he called you babe  
All night long
