Here With You

Sick Puppies

You give me highs to lose my breath
That leave me wanting more
You gave me notes I won't forget
But left me on the floor
You're every thing and nothing else
You saviour what it seems
Until the lights go dark, until the end of meI'd give up all my tomorrows,
To be here with you,
Walk off the world just to follow,
To follow you
You're every waking hour
You're all the time devours
I'd give up all my tomorrows,
To be here with you,
To be with here you,I pray for this to never end
Cause I just couldn't breathe
And now the fear of losing you
Is the ghost that haunts my dreams
And if you tell me all is lost
Then I would give you hope
Cause without you I don't exist
And I'd go coldI'd give up all my tomorrows,
To be here with you,
Walk off the world just to follow,
To follow you
You're every waking hour
You're all the time devours
I'd give up all my tomorrows,
To be here with you,Now I see what I couldn't believe
All the things you were saying to me
It's taken me so long
It's taken me so long
All my walls they are falling to dust
I'm telling you I never knew how to trust
It's taken me so long
It's taken me so long
You gave me notes I won't forget
You left me on the floor
You gave me highs that lose my breathI'd give up all my tomorrows,

To be here with you,
Walk off the world just to follow,
To follow you
You're every waking hour
You're all the time devours
I'd give up all my tomorrows,
To be here with you,
To be here with you,
To be here with you,
To be here with you,
I'd give up all my tomorrows,
To be here with you,
