

So Near So Far

Angra

Look at my face
Scars won't deny Alone again
I start to cry Staring at me
Too blind to see Open arms
For all i give
For all i take
Inside of your heart
So near so far I'm just a boy...like you Oh! father i pray
For your charity
Wisdom, for life
Was all i needed
Was all i wanted
To share with you You know my heart
Was not disguise
Waiting for you
So stay with me I'm now a man! you know! Come! take a chance
And give it all
No, harmful winds
To whisper for Life is short, you know
We can regret
Healing wounds always help us to redress
And with you i learned to live Come! take a chance
And give it all
No, harmful winds
To whisper for Our time is short, you know
Must we still regret ?
Healing wounds always make time to redress
And i love you more each day
