Grain Of Salt

The Morning Benders

Yeah, when I came to you were standing by the foot of the bed
I was still hung over and my eyes were bloodshot and redDid you think that things were gonna be different?
Did you think you tore my whole world apart?
But as you can see theres no pain in my head
And down in this old broken heartI took your leaving with a grain of salt
Tequila and a slice of lime
Yeah, the minute you left, me and them boys
Went out and had a real good timeIts nice of you to check up on me
Just to see how I was getting along
But I'd already gotten over it baby
'Fore you were even goneBy now you've observed
I was a little over-served last night
I need to catch a few Zs
Baby, please turn off that bedroom lightSee the boys are coming by to get me
Were gonna take our little show into town
Ill need my rest 'cause theyll be doing their best
To find another juke joint downI took your leaving with a grain of salt
Tequila and a slice of lime
Yeah, the minute you left, me and them boys
Went out and had a real good timeIts nice of you to check up on me
Just to see how I was getting along
But I'd already gotten over it baby
'Fore you were even goneYeah, I had already gotten way over it baby
'Fore you were even gone, gone
Bye now
