

Unbreakable

[Jamie Scott](#)

She finds it hard to trust someone
She's heard the words cos they've all been sung
She's the girl in the corner
She's the girl nobody loved
But I can't, I can't
Can't stop thinking about you everyday
And you can't, you can't
You can't listen to what people say
They don't know you baby
Don't know that you're amazing
But I'm here to stay

When you lose your way
And the fight is gone
Your heart starts to break
And you need someone around now
Just close your eyes a while
I put my arms above you
And make you unbreakable
She stands in the rain, just to hide it all
If you ever turn around
I won't let you fall down now
I swear I'll find your smile
And put my arms above you
And make you unbreakable
I'll make you unbreakable

Cos she's the girl that I never had
She's the heart that I wanted bad
The song I heard on the radio
That made me stop and think of her
And I can't, I can't
I can't concentrate anymore
I need, I need
Need to show her what her heart is for
It's been mistreated badly
Now her world has started falling apart
Falling apart

When you lose your way
And the fight is gone
Your heart starts to break
And you need someone around now
Just close your eyes a while
I'll put my arms above you
And make you unbreakable
She stands in the rain
Just to hide it all
If you ever turn around
I won't let you fall down now
I swear I'll find your smile
Then put my arms above you
And make you unbreakable

You need to know that somebody's there
All the time
I'd wait in line
And I hope it shows
I can't walk away 'till your heart knows
It's beautiful
Oh, I hope it knows
It's beautiful

When you lose your way
And the fight is gone
Your heart starts to break
And you need someone around now
Just close your eyes a while
I'll put my arms above you
And make you unbreakable
She stands in the rain
Just to hide it all
If you ever turn around
I won't let you fall down now
I swear I'll find your smile
Then put my arms above you
And make you unbreakable

Cos I love, I love, I love, I love you darling
Cos I love, I love, I love, I love you darling
And I'll put my arms around you
And make you unbreakable
Unbreakable
