Haywire

Dog's Eye View

We used to live so bright
We used to shine, she said
Now you just work all day
I just stay in bedDreamin' of singin' 'nother song
Dreamin' of flyin'
Knowin' it can't, it won't be long
Before I just float awayWell, I come from the cradle
I'm going to the grave like everybody else has
You know, I made the same old sins
And I make the same mistakes as everybody else hasAnd I'm going haywire
And I'm going haywireWell, you can count me out of
Your prized possessions, watch me smiling
Cut me down with your best intentions
Listen to me laughingAnd though, I come from the cradle
I'm going to the grave like everybody else has
You know, I made the same old sins
And I make the same mistakes as everybody else hasAnd I'm going haywire
Hey, why not
I'm going haywireAnd what do I have to lose?
And what do I have to lose?
And what do I have to lose?
What do I have left to lose?Drop my clothes in the closest ocean
Set me sailing
No, you don't have to tell me where I'm going
Just please, don't make me stayAnd though, I come from the cradle
I'm going to the grave like everybody else has
You know, I made the same old sins
And made the same mistakes
I make the same old sins
I won't make the same mistakes as you and everybody else hasAnd I'm going haywire
Hey, why not
And I'm going haywireAnd you can try to stop me
Now if you're so [Incomprehensible]
And you can try to plead for me
But I don't think you can
Somehow I found my feet
And walked right away from youAnd I'm going haywire
And I'm going hay
I'm going haywire
