

Ode to Jacque Fresco

[Birdwu](#)

I feel it's not enough
For the free market to uplift itself
The monetary system has got to go
This cyclical consumption of the paper-virus will kill us all
While you were sitting counting sheep
He was on the run
Our minds have fallen off
Let's get them back
I feel it's not enough
For this paradigm to continue and leave us dry
From profit acquisition
To peace being a product that's bought and sold
While you were sitting counting sheep
He was on the run
Our minds have fallen off
Let's get them back again
