

# Tore Down A La Rimbaud

Van Morrison

                  Showed me pictures in the gallery  
                  Showed me novels on the shelf  
                  Put my hands across the table  
                  Gave me knowledge of myself.  
          Showed me visions, showed me nightmares  
                  Gave me dreams that never end  
                  Showed me light out of the tunnel  
When there was darkness all around instead.Tore down a la Rimbaud  
                  And I wish my message would come  
          Tore down a la Rimbaud, you know it's hard some time  
You know it's hard some time.Showed me ways and means and motions  
                  Showed me what it's like to be  
                  Gave me days of deep devotions  
          Showed me things I cannot see.Tore down a la Rimbaud  
                  And I wish my purpose would come  
          Tore down a la Rimbaud, you know it's hard some time.  
You know it's hard some time.Showed me different shapes and colors  
                  Showed me many different roads  
                  Gave me very clear instructions  
When I was in the dark night of the soul.Tore down a la Rimbaud  
                  And I wish my writing would come  
          Tore down a la Rimbaud, you know it's hard some time.  
You know it's hard some times.Tore down a la Rimbaud  
                  And I wish my writing would come  
          Tore down a la Rimbaud, you know it's hard some time.  
                  You know it's hard some times.  
                  You know it's hard some times.  
                  You know it's hard some times.  
Tore down a la Rimbaud, you know it's hard some times.
