True Loves

Morningshow: Hooray For Earth

A heart of ice is easily melted
A heart of stone is easily thrown away

It's the true loves
That make me want to cry
It's the true loves
That make me want to say goodbye

A heart of ice is easily molded
A heart of stone is easily hidden away

It's the true loves
That make me want to cry
It's the true loves
That make me want to say goodbye

So take your true loves
Down to the river
And I will watch you here on the corner
And if you need me I'll always be here

A heart of stone never goes anywhere
A heart of stone never goes anywhere
