Lost Planes

The Fixx

When you're hanging
From a parachute
Whistling wind
Might play your flute
So forget it
Lost traffic
Someone said
You couldn't fly the plane
So I guess
This journey's all in vain
So forget it
Lost traffic
We're on a lost plane
Should've taken the train
On a lost plane
So forget it
Flying high
But your fuel is low
How far can
A missing plane go?
Lost traffic
Tell you that
You're flying radar
But it's that much safer
To take your own car
On a lost plane
Should've taken the train
On a lost plane
So forget it
On a lost plane
Should've taken the train
On a lost plane
So forget it
Lost traffic
On a lost plane
Should've taken the train
Lost traffic
On a lost plane
Should've taken the train

Lost traffic
On a lost plane
Should've taken the train
Lost traffic
On a lost plane
Should've taken the train
On a lost plane
Should've taken the train
On a lost plane
So forget it
So forget it
On a lost plane
Should've taken the train
On a lost
On a lost plane
On a lost plane
Lost plane
So forget it
