

# Silent Eyes

Cooya

This is the last time through hell, I've seen your insides  
Tear out your eyes tonight, you'll see  
Is this where my angel lies?  
I've cut you up to see me  
Am I worth a thousand lies?  
Infect your perfect slice up skin  
You wrote the book on silent eyes  
And I wrote this song to say goodbye  
This is the last time that I'll  
It's raining in cuts so bright  
The screaming soothes the anger  
I've never been so scared alive  
When friends that crash goodbye  
Their soul will change the future  
And that's where the beauty in death resides  
Infect your perfect slice up skin  
You wrote the book on silent eyes  
And I wrote this song to say goodbye  
This is the last time that I'll  
Save the rain he's alive  
Save the rain he's alive  
Save the rain he's alive  
Save the rain he's alive  
Friends that crash goodbye  
Your soul will change the future  
And that's where the beauty in death resides  
Infect your perfect slice up skin  
You wrote the book on silent eyes  
And I wrote this song to say goodbye  
And I wrote this song to say goodbye  
This is the last time that I'll cry
