

Devil In the Truth

Oak is Keeping

I am a sandbag to the flood
fairweather friends will drown in blood
this will be the way to self destruct
something really big is on the cusp

Are you someone else

Open up your mouth and make a sound
heavy f***ing armor will bring you down
not collected I am keen
If we keep a secret we keep it clean

You are someone else

Feel that sick and learn to fake it
Devil in the truth don't know what to do
tow the line our ships our vacant
Devil in the truth
Who knows right from wrong
I saw it all along

Loosen up babe and shake it off
I am the last thing you should cross
Tie your hands open your eyes
happy endings bloody surprise

Now you are someone else

I am really good at what I do
I am the beast, we are few
take it back home and tell your friends
dirty little truths and bitter ends

Feel that sick and learn to fake it
Devil in the truth don't know what to do
tow the line our ships our vacant
Devil in the truth
Who knows right from wrong
I saw it all along
