

# Half Man, Half Shark; Equals One Complete Gentlema

## A Static Lullaby

we'll light up the segway  
we'll load them up and ship them out  
out! out!tonight this poet dies  
it inkwell has spoken  
its last words  
his thoughts were left in fiction  
and his hope for substance  
had faded long ago you and i both need to know  
when we fall, you die, we die  
stand there, to get us get us now  
if we fall, you die, we die  
there out to get us now tonight the candle was left burning  
and a shred of dignity is lost within the flame  
and his fears were left unmentioned  
his cry for silence had faded long ago you and i both need to know  
when we fall, you die, we die  
stand there, to get us get us now  
if we fall, you die, we die  
there out to get us now tonight this poet dies  
tonight this poet dies  
tonight, tonight, tonight you and i both need to know  
if we fall, you die, we die  
stand there out, to get us get us now  
if we fall you die, we die we'll light up the segway  
we'll load them up and ship them out  
out! out!
