

Mercury and Solace (Mix Cut)

BT

Awareness, the fruit of life
Awareness and happiness Vibes The dance never ends But I know you're there
But I know you're there Only you are my happiness Memories Happiness Lovely voices In nightfall I'll meet you
Seeds of desire absolve
There's no going back
I'm losing control As the morning creeps up
And I'm looking for the shade
In your embrace
My grieving says reach out for me, reach out
Reach out for me, reach out I know you're, you're there Reach out for me, reach out
Reach out for me, reach out I may go with you Lovely voices Reach out for me, reach out
Reach out for me, reach out I savor every moment
I'll savor every moment
You're precious
You're precious to me
