Left Hand Charity

36 Crazyfists

A classroom circle slowly drifts on
I knew right then I'd carve your name, so I
Save your charity
It's gone too far now as it seemsI drive by your scenery
All the while I died that night
Please come back, tell me it's alrightAnd save your charity
It's gone too far now as it seems
Little boys that misbehaveAnd I want to look you in your eye
I want to look you in your eye
Want to look you in your eye
I want to look you in your eye
