

# Don't say goodbye

**POPS FERNANDEZ**

Don't say goodbye  
It's hard to let you go  
Tomorrow seems so far away for me to know  
If you and I will always be in love forevermore  
Don't leave me with just memories Today I heard our favorite song on the radio  
I closed my eyes and saw our first hello  
And then I saw the time we fell in love in each others' arms  
I open my eyes and you were gone Suddenly I realized how I love you so  
And how I can't survive without your love  
Since the time we'd say goodbye  
It's hard for me to stay  
How I wish you'd never go away  
Don't say goodbye  
It's hard to let you go  
Tomorrow seems so far away for me to know  
If you and I will always be in love forevermore  
Don't leave me with just memories  
All alone  
(All alone) Today I read your letters  
And waited for your call  
I wondered if you think of me at all  
Again I turned the radio on and heard our favorite song  
And then I knew you'll soon be coming home Don't say goodbye  
It's hard to let you go  
Tomorrow seems so far away for me to know  
If you and I will always be in love forevermore  
Don't leave me with just memories  
Don't say goodbye  
It's hard to let you go  
Tomorrow seems so far away for me to know  
If you and I will always be in love forevermore  
Don't leave me with just memories I heard our favorite song on the radio  
All alone
