All Too Soon

Adelphi

My life it seems way too short
Oppurtunities blow past everyone
by one they go straight through the door
When will I ever have some fun?I wish tomorrow happened yesterday
too much to lose, to much to complicate
It scares me so to think of whats to come
I don't want to run ahead and throw it all awayI guess its all to soon to just assume
that everythings gonna be fine
Not sure exactly why I'm so scared
I guess we'll leave it up to time to decideI wish tomorrow happened yesterday
too much to lose, to much to complicate
It scares me so to think of what's to come
I don't want to run ahead and throw it all awayI wish tomorrow happened yesterday
too much to lose, to much to complicate
It scares me so to think of whats to come
I don't want to run ahead and throw it all away
(Go!)I guess it's all too soon (I guess its all too soon)
to just assume thats everythings gonna be fine
