January

Disclosure

Tell me just what I should be expecting
'Cause here I am on my own free will
Fortune favors the brave
So they say
I might as well fix something, play your game
Make a memory the reason
Remembering the time when you and I felt the high
I've found a way just to fight it
And we cannot regret
The esthetical feel
We had our brighter day
Was it synthetic or real
I protect the memory
If baby you can't recall it
You can't recall that
20 second journey with me
If baby you can't recall it
I won't forget that
I protect the memory
If baby you can't recall it
You can't recall that
20 second journey with me
If baby you can't recall it
I won't forget that
Was it just as real as you expected
'Cause looking back gives you a chill
Show me something you prefer today
Yea yea
Or maybe you're grown up and down to say
That amnesia gave you freedom

Or maybe you're a kind that tells a lie just to lie
We never have to say goodbye
And we cannot regret
The esthetical feel
We had our brighter day
Was it synthetic or real
I suspect your disbelief
Put in faith in your relief

I suspect your disbelief
Put in faith in your relief
I suspect your disbelief
Put in faith in your relief
I suspect your disbelief
I protect the memory
If baby you can't recall it
You can't recall that
20 second journey with me
If baby you can't recall it
I won't forget that
I protect the memory
If baby you can't recall it
You can't recall that
20 second journey with me
If baby you can't recall it
I won't forget that
I protect the memory
If baby you can't recall it
You can't recall that
20 second journey with me
If baby you can't recall it
I won't forget that
