

Up in Smoke

Morgan James

Trying to start a fire with your sticks and bones
Ain't no way to rub him the right way
Trying to get a spark from your heart of stone
Turn myself to ashes just so you'll stay
Try to keep a flame going inside my mind
Ain't no way to breathe when I'm in it
Try to keep the smoke from going into my eyes
Snuff it out in a minute 'Cause everything we had baby it's all gone
Gone
Gone
Baby it's all gone
Gone
Gone
Everything we had is going up in smoke
Never had enough at stake to make it burn
Never gave it up when I needed
Never got a thing to give me in return
Never stopping the bleeding 'Cause everything we had baby it's all gone
Gone
Gone
'Cause everything we had baby it's all gone
Gone
Gone
Baby it's all gone
Gone
Gone
Everything we had is going up in smoke
Gone
Gone
Everything we had is going up in smoke
Gave me
No good
Save me
From you
Make me put it out
Put it out yeah, yeah, yeah Baby it's all gone
Baby it's all gone
Baby it's all gone
It's all gone

Baby it's all gone

Gone

Gone

Everything we had is going up in smoke
