

# Can I Get Your Number

## No Authority

Can I get your number baby  
Hit me with the seven digits  
Can I get your number baby  
Hit me with the seven digits When you walked through that door  
I nearly lost my mind  
Your sexy attitude  
And something 'bout your smile  
I knew right then and there  
I had to know your name  
I had a crush before  
But this just ain't the same 'Cause I've never fallen in love before  
With a girl I didn't even know  
And there's somethin' about you  
That tells me that I should be down [Chorus]  
I've been east  
I've been west  
We've been all around the world  
But I've never seen a girl like you  
(Seen a girl like you)  
I've seen blondes and brunettes  
And some really hot redheads  
But I've never seen a girl like you  
(Seen a girl like you) Can I get your number baby  
Hit me with the seven digits  
Can I get your number baby  
Hit me with the seven digits Must be a supermodel  
You're a perfect ten  
Your body's off the hook  
And girl I must confess  
If you were on display  
I'd wait all week in line  
I better check my vision  
'cause I can't believe my eyes 'cause I've never fallen in love before  
With a girl I didn't even know  
And there's somethin' about you  
That tells me that I should be down [Chorus] Can I get your number baby  
Hit me with the seven digits  
Can I get your number baby  
Hit me with the seven digits Cause I've never fallen in love before

With a girl I didn't even know  
And there's something about you  
That tells me that I should be down[Chorus: x 3]
