

Can I Get Your Number

No Authority

Can I get your number baby
Hit me with the seven digits
Can I get your number baby
Hit me with the seven digits When you walked through that door
I nearly lost my mind
Your sexy attitude
And something 'bout your smile
I knew right then and there
I had to know your name
I had a crush before
But this just ain't the same 'Cause I've never fallen in love before
With a girl I didn't even know
And there's somethin' about you
That tells me that I should be down [Chorus]
I've been east
I've been west
We've been all around the world
But I've never seen a girl like you
(Seen a girl like you)
I've seen blondes and brunettes
And some really hot redheads
But I've never seen a girl like you
(Seen a girl like you) Can I get your number baby
Hit me with the seven digits
Can I get your number baby
Hit me with the seven digits Must be a supermodel
You're a perfect ten
Your body's off the hook
And girl I must confess
If you were on display
I'd wait all week in line
I better check my vision
'cause I can't believe my eyes 'cause I've never fallen in love before
With a girl I didn't even know
And there's somethin' about you
That tells me that I should be down [Chorus] Can I get your number baby
Hit me with the seven digits
Can I get your number baby
Hit me with the seven digits Cause I've never fallen in love before

With a girl I didn't even know
And there's something about you
That tells me that I should be down[Chorus: x 3]
