

Eat My Brain

Odds

My droopy eyed Madonna
A triple fire alarm
All the other rogues and darlings
Get sent to the farm I don't need to deceive you
'Cause I feel no pain
Maybe I should let you
Come on and eat my brain There's an art to perception
So see it as you will
Can you adjust my reception?
Just give me the latest pill I don't need to deceive you
'Cause I feel no pain
Maybe I should let you
Come on and eat my brain I know you tried to forget me
Well, today is remembrance day
So if you're willing then let me
It's time to make your play I don't need to deceive you
'Cause I feel no pain
Maybe I should let you
Come on and eat my brain
