Let It Rip

Trik Turner

We become what we think about
If you think about nothing, you become nothingSo we let it rip, the beats never skip
Straight up tip yeah
On that strength we don't care 'bout yours
Trik Turner represents yoursLet it rip, the beats never skip
Straight up tip yeah
On that strength we don't care 'bout yours
Trik Turner represents yoursI've seen the sun and I've seen the rain
In an imperfect world where everything seems the same
It's just a vicious circle that keeps going 'round
Gotta find a way to get out of hereI'm too addicted to this drome I call home
I'm always leaving only to come back again
For more, no matter what the outcome is
It's just the way the showbiz is
It eats you up spits you out
If your not here well then you got taken outSo we let it rip, the beats never skip
Straight up tip yeah
On that strength we don't care 'bout yours
Trik Turner represents yoursLet it rip, the beats never skip
Straight up tip yeah
On that strength we don't care 'bout yours
Trik Turner represents yoursDarken days paves the ways like city streets
A blaze knock knock can your kids come out & play
Keep your doors locked keep your eyes shut
Lay one on that trigger how you figure you're bigger
Talk is cheap in the house of these slayers
3 by 3 you can't fuck with these playersIf ya down with me and if ya round with me
And then ya pound with me and then ya clown with me
And then ya smoke with me but if ya joke with me
I think you you die with me and then we transcend
All bad things come to an end that's why we
Sparkin' this shit Trik Turner is the lick nowIt doesn't matter where you're from
Where you go, how you flex, how you flow
How you're on to the next, new improved styles
How you flip your shit and how you always keep it real
It doesn't amount to nothing
Just as long as you let it ripSo we let it rip, the beats never skip
Straight up tip yeah
On that strength we don't care 'bout yours

Trik Turner represents yoursSo we let it rip, the beats never skip
Straight up tip yeah
On that strength we don't care 'bout yours
Trik Turner represents yoursBlackened lungs and I'm too tired to run
I've got seventeen more nights until I see the sun
If I could turn back time
I'd do it all again 'cause this is the life
And I'm a Trik until the end nowSo we let it rip, the beats never skip
Straight up tip yeah
On that strength we don't care 'bout yours
Trik Turner represents yoursSo we let it rip, the beats never skip
Straight up tip yeah
On that strength we don't care 'bout yours
Trik Turner represents yoursSo we let it rip, the beats never skip
Straight up tip yeah
On that strength we don't care 'bout yours
Trik Turner represents yoursThere's no way you could take me out
There's no way you could take me out
There's no way you could take me out
Triks harder, come on represent yours
