

# Unfold

## The xx

You move your hand away from mine  
That you're any less than mine  
Oh, it doesn't move me to be cold  
It doesn't lessen my hope  
You know our time and all  
Oh let it unfold  
I won't leave it untold  
The feeling goes on and on and on  
You tell me things you've never said  
And I choose to forget  
And take the good and leave the rest  
Oh, the illusions getting old  
And you don't answer when I call  
I would have given you it all  
Oh, out of sight out of mind  
It doesn't mean you're not mine  
The feeling goes on and on and on
