

A Million Ways To Love You

Charlie Wilson

There's a million ways, a millions ways to love you baby

(Verse)

Girl it don't have to be fair, you're wearing fortinth

Wanna make every day Valentines when you're with me

Take off your shoes baby leave it to me

Girl just relax what you mean is TLC

Take a nap won't you have, when you wake up this ain't a dream

I got a millions ways to love you

(Pre-Chorus)

Actions speak louder than words, baby

So I'll show you instead

With you I wanna share it all

(Chorus)

There's only 60 seconds in a minute

365 days a year

Trying to find the words but they can't compare

There's a million ways to love you

A million ways to love you

There's only 26 letters in the alphabet

88 keys on a piano ye

When it comes to you baby it's even less

There's a million ways to love you

A million ways to love you

(Verse)

Goodbye, looking fine go ahead and dim those lights

(There's a millions ways to love you)

Work you up, make you sweat, gonna be raining inside

(I got a million ways to love you)

Touch on, touch on you leave my fingerprints

Right on your heart so you always let me in

Get ready for a marathon, stop!

Let's do it again, again

I got a million ways to love you

(Pre-Chorus)

Actions speak louder than words, baby

So I'll show you instead

With you I wanna share it all

(Chorus) x2

There's only 60 seconds in a minute
365 days a year
Trying to find the words but they can't compare
There's a million ways to love you
A million ways to love you
There's only 26 letters in the alphabet
88 keys on a piano ye
When it comes to you baby it's even less
There's a million ways to love you
A million ways to love you
