

# She Said

## The Pharcyde

[Slim Kid3]

I guess everybody needs somebody to love you can't  
Leave love lonely cause being naive to it you can just  
Lose it like that See kisses for bruises don't make it  
Heal back it be's the sex appeal that's from the next  
And not necessarily the sex and one might appeal to  
The intellect having a greater affect on how they feelin'  
Stimulation breaking down their shields for the real and  
As it stands mysteriously curiosity it kills the cat and  
Offsets them mentally so they're trapped in behind  
These fantasies with no action searching for a remedy  
Now she loves her man but there is just a different type  
Of chemistry that flairs when her desires on fire quick  
Is the fuse another loves for hire

[Chorus: x2]

And she said,  
It'll be good if you stayed with me tonight  
So I granted her wish

[Fatlip]

I was high like the vocal tone of my nigga Bootie Brown  
Decided to take a ride to see what's really goin' down up on  
The northside of town Of course I bought a quarter pound  
Of bomb hemp feelin' a-ight like Johnny Kemp on a Friday  
Night Lookin' right cause my shit is tight blazin' blunts to city  
Lights on Sunset and Crescent Heights Bounce to the House  
Of Blues then I slid in free wit tennis shoes, sweatshirt, jeans  
And no ID. Soon as I step inside the plizace I recognize the  
Fizace of an epp wit an izass more amazin' than grace So  
I waste no time to kick my little I say "How ya doin'" she say  
"I'm doin' fine" so I commence to macking to baby to see  
What's cracking So maybe I get her back at the cabin and  
Start attacking Threw back a shot of yack and started jabber  
And jibben Fibbing and adibin just to get her to my crib then  
We was chilling on the bed bumping some Isley thought I was  
About to spread the thighs but she surprised me when she  
Said "oh like that? You know I don't get down" I know my

Homies gonna clown cause I let her stick around when

She said,  
It'll be good if you stayed with me tonight  
So I granted her wish

[T. Hardson]

Now Daddy's home  
But she's been waiting all night so we could be all alone  
This is an everyday thing so we hang out by the phone  
Trying to build something real  
Working tips to the bone  
So much loves gone astray that it won't be coming home

No time soon  
So I dance with the silhouette beneath the moon  
And she said if satisfactions guaranteed  
Nothing else could come between  
The flight of a new love babe, yeah maybe  
We could be cool instead of sharin' this here ship  
With the fools, you know get down to the bone (that)

Right now, right now,  
Right now, right now, baby,  
Right now, right now,  
Right now, baby, and she said,  
I'll give you the world if you want it  
I'll give you the world if you need it baby  
If you got to have it  
And she said, you know that she said  
And she said, and she said,  
And she said, and she said,  
And she said, yea  
I'll give you the world if you want it  
I'll give you the world if you need it baby  
I'll give you the world if you want it
