Away We Go

Luke Spehar

She is her own worst enemy
Her heart a landmine calamity
Waiting for someone to set her off
Morse code a clicking out an SOS
Life raft releasing her last breath
Tonight she's going to drownWithout me, will she reach the great beyond
Believe me, take my word, I'll never break your heart...
And away we go
My little Jersey girlIf we could escape this innocence
Trapped between the fear and the words we kept
We'll live out our later yearsHere in our dreams, we'll reach the great beyond
Believe me, take my word, I'll never break your heart...
And away we goSinking in this beautiful undertow
Together with youWe're giving up
You can leave what little you believe
Our flaw, discard, come give me what I need
My thoughts won't go away
You are my holidayTogether we'll receive, and reach that great beyond
Believe me, take my word, I'll never break your heart...
And away we go
My little Jersey girl
My little Jersey girl
My...away we go
