# Back to Love

## Charlie Wilson

Love
If your missing that someone you love
Let me see you do a step, do a stepI know that I apologized about a million times
I know your heard this all before
ohh yeah
What can I say, that can make you change your mind
You see I'm not the man you used to know
ohh yeahI'm like a star out of place
My heart is an empty space
It's clearer to me now that your gone
ohh yeah
I wish that I can undo the hurt I put you through
And now I'm so lost without youI've got to get back to your love
ohh yeah
Like a kid whose lost his way
I'm trapped inside a maze
Get back to your love
ohh yeah
Can you point me in the right direction
To your love, your love, your love, love love love
Can you point me in the right direction
To your love, your love, your love, love love love
Can you point me in the right directionFor what its worth, as long as it takes
I will wait forever just to get to you
ohh yeah
I hear your voice, I see your face
Only your touch would take away this pain
ohh yeah
I lay awake coz I can't sleep dreaming on
How I realize that I'm imagining
Do I cross your mind, do you think of me,
If I had the chance this time I'll follow your leadI've got to get back to your love
ohh yeah
Like a kid whose lost his way
I'm trapped inside a maze
Get back to your love
ohh yeah
Can you point me in the right direction
To your love, your love, your love, love love love

Can you point me in the right direction
To your love, your love, your love, love love love
Can you point me to the right directionTell me how we can get back woahhh
My heart belongs to you
When its said and doneI've got to get back to your love
hey
Can you point me in the right direction
I've got to get back
To all my ladies if your missing that someone you love
Let me see you do a step, do a step in the name of love
All my fellas, if your missing that special someone you love
Let me see you do a step, do a step in the name of love
I've got to get back to your love
Like a kid whose lost his way
I'm trapped inside a maze
Get back to your love
Can you point me in the right direction
To your love, your love, your love, love love love
Can you point me in the right direction
To your love, your love, your love, love love love
Can you point me to the right directionIf your missing that someone you love, love, love
Let me see you do a step, do a step in the name of love (2x)
