

# Formaldehyde

## Phideaux

Would you butcher my love  
To understand it  
To know where it lies?  
Cut a hole in my heart  
Fill a hole in your life

I'm yours to dissect  
Now does every heartbeat  
Burn white heat in your blood?  
Formaldehyde

The tissue and bone  
And my soul has on loan  
Begs to be near you  
Are you listening carefully?  
Then we shall begin

Now does every heartbeat  
Burn white heat in your blood?  
I hope it doesn't matter  
I hope we swim up out of this flood

Of formaldehyde (I'll never let you go)  
Formaldehyde (until the end of time)  
Formaldehyde (I'll never let you go)  
Formaldehyde (nothing on my mind)

Smother my love, entertain it  
My mind's gonna wander  
Are you listening carefully?  
Then we shall begin

Of formaldehyde (I'll never let you go)  
Formaldehyde (until the end of time)  
Formaldehyde (I'll never let you go)  
Formaldehyde (nothing on my mind)

I'm lost in a love that's a mile wide  
Drowned in a bath of formaldehyde

Now does every heartbeat  
Burn white heat in your blood?  
I hope it doesn't matter  
I hope we swim up out of this flood

Of formaldehyde (I'll never let you go)  
Formaldehyde (until the end of time)  
Formaldehyde (I'll never let you go)  
Formaldehyde (nothing on my mind)

I'm lost in a love that's a mile wide  
Drowned in a bath of formaldehyde
