Turn Smile Shift Repeat

Phantom Planet

Here they come the business men like a herd of cattle rumbling in The exchange has officially begun

Now all the offices are buzzing the executives are busy bees

They watch the gears turn in the employeesThen they just turn, smile, shift, repeat

Turn, smile, shift, repeatThere's a crowd forming on Wall street near the tallest building on the block

A suit has lost his fortune to the stocks

There was no time to see his fatal flaw the madness set in with the loss Now he cuts at throats to watch the heads fall offThen they just turn, smile, shift, repeat

Turn, smile, shift, repeat

Turn, smile, shift, repeat

Turn, smile, shift, repeatAnd decimal points and dollar signs taxes penalties and fines He's come to cut you down

And numbers passwords protocol it's not enough to save your soul
He's come to cut you down, bring you right back to zeroJust turn, smile, shift, repeat
Turn, smile, shift, repeatAnd decimal points and dollar signs taxes penalties and fines
He's come to cut you down

And numbers passwords protocol it's not enough to save your soul He's come to cut you down, bring you right back to zero
