The Static Jacks

Watch it - here we go again
Just say my name, and i will bend
I'll kill you with my words
And i'll kill you with mineWe never confuse
"Hello" with "I need you"
But destructive times
Beget destructive minds
We can't get away
From each other, so stayWatch it - here we go again
Just say my name, and i will bend
I'll kill you with my words
And i'll kill you with mineWe never confuse
"Goodbye" with "I love you"
I was always afraid
To leave, but i shouldn't have stayed
Watch it - here we go again
Just say my name, and i will bend
I'll kill you with my words
And i'll kill you with mine
