## The Static Jacks

Watch it - here we go again  
Just say my name, and i will bend  
I'll kill you with my words  
And i'll kill you with mine We never confuse  
"Hello" with "I need you"  
But destructive times  
Beget destructive minds  
We can't get away  
From each other, so stay Watch it - here we go again  
Just say my name, and i will bend  
I'll kill you with my words  
And i'll kill you with mine We never confuse  
"Goodbye" with "I love you"  
I was always afraid  
To leave, but i shouldn't have stayed  
Watch it - here we go again  
Just say my name, and i will bend  
I'll kill you with my words  
And i'll kill you with mine
