

Treason

A I Z

In a dark regatta
In a land of hope
A kingdom of freedom
The wizard made his home
He spoke of Blood and Treason
His mind was black as night
For no particular reason
He just likes to fight

Treason! Treason
That's what the wizard screams
Treason...Treason
He could see right through your dreams
Treason...Treason
Blackbird of the night
Treason...Treason
The night time is right

The mist is rising higher
Circles from a spell
A lot of hope and sanctuary
Shot through to hell
The heaven he had bought
Was just a hopeless spell
The wizard screamed and shouted
His plan was black as well

Treason! Treason
That's what the wizard screams
Treason...Treason
He could see right through your dreams
Treason...Treason
Blackbird of the night
Treason...Treason
The night time is right

Treason! Treason
Blackbird of the night
Treason...Treason

The night time is right

Treason...Treason

The night time is right

Treason...Treasonâ€™Treason
