

On Everything

K'Jon

(feat. Seven The General) If you wanted a precious pearl,
then I would search the whole world.

No matter how or what the cost,
girl I'm giving you my heart.[Chorus:]

You'll never have to worry bout a single thing.

I promise I will give you all that you have been dreaming.

No matter what life will bring, I'll put that on everything.

You won't have to worry about a single thing.(Baby) I promise to love you
and I'll do what I gotta do.

And I will do anything,

I'll put that on everything.[Seven The General's Rap]

When the rain is coming down I'll be the sun (the sun)
to ease the pain and wipe away the storm (the storm).

I'll be the moon and light until the night.

Girl I will be by your side.

I know you hurt because he wasn't true.

You don't deserve the things he did to you.

Give me a chance and girl I'll make it up...,

I know what you need.[Seven The General's Rap][Bridge][Chorus:]

You'll never have to worry bout a single thing.

I promise I will give you all that you have been dreaming.

No matter what life will bring, I'll put that on everything.

You won't have to worry about a single thing.

You'll never have to worry bout a single thing.

I promise I will give you all that you have been dreaming.

No matter what life will bring, I'll put that on everything.

You won't have to worry about a single thing.

(Baby) I promise to love you
and I'll do what I gotta do.

And I will do anything,

I'll put that on everything.
