Mirror

Dreamtale

Time after time
You close that door
And say to me:
Can't stand no more
But every time
When I'm away
You call to me:
Please come and stay!You know it's hard to carry on
If you don't love me anymore
You say you need to lean on me
But can I too, lean on youWant it all
To be young and free
Have family
But can't you see
You can't decide
What's right or wrong
Don't think no more
It's time to goYou know it's hard to carry on
If you don't love me anymore
You say you need to lean on me
But can I too, lean onYou talk me 'bout
Your self esteem
How you think
I've flushed it down the drain
You know the mirror
Hanging at your wall
Take a good look in it
And you'll find the real causeYou know it's hard to carry on
If you don't love me anymore
You say you need to lean on me
But can I too, lean onYou say it's hard to carry on
If you don't love me anymore
You say you need to lean on me
But can I too, lean on you
