

# Scream of Freedom

**Murilo Romano**

You feel afraid about music's future  
You can't believe in the things you hear  
In every Tv shows and on the radio  
Only bad news and music is the worst

Someday we will get rid of every absurd  
Every wrong feelings and every war  
There's one more reason to save our music  
It can hit straight to the heart and change lives

So you can join us in this battle!  
Where no one will be hurt or bleed  
Never give up! Don't lower your head!  
This is the time and starts with a

Scream! As loud as you can  
Dreaming, the bad things will end  
The world will be forever good  
And the sound will set you free  
I promise you
