Get It Right

Brendan James

Deep is the water under my bridge, flowing
And short is the lifetime that I've lived, knowing
Messing up and starting over againMaybe all the breaks
And the young mistakes
Were supposed to carry me hereThis time I gotta get it right
Gotta get it right now
Gotta get it right this time
Lord knows I've let myself down
Too many times, many times, yeahThis time I gotta get it right
Gotta get it right now
Gotta get it right this time
My life is passing me by
Gotta take a deep breath
And get it rightLooking for answers what have I missed, someone
I want to be so much better than this in the long run
Stepping forward and falling backwards againWhen I get the breaks
Will the young mistakes
Be the ones to carry me onThis time I gotta get it right
Gotta get it right now
Gotta get it right this time
Lord knows I've let myself down
Too many times, many times, yeahThis time I gotta get it right
Gotta get it right now
Gotta get it right this time
My life is passing me by
Gotta take a deep breath
And get it rightI know I'll get there
Things will get better
Better with every dayAnd what lies behind me
Will not define me
I tell myself nothing
Can stop me now, stop meThis time I gotta get it right
Gotta get it right now
Gotta get it right this time
My life is passing me by
Gotta take a deep breathThis time I gotta get it right
Gotta get it right now
Gotta get it right this time
Lord knows I've let myself down

Too many times, many times, yeahThis time I gotta get it right
Gotta get it right now
Gotta get it right this time
My life is passing me by
Gotta take a deep breath
And get it right
And get it right
